# BIONIC COMMANDOS

TM

## Shotgun

It fires at his enemies.

## The world is facing ultimate destruction!

It has been 10 years since the devastating world war.

The enemy surprised us with gigantic missiles this time. After the enemy attack, our army succeeded in sending the special commando unit to infiltrate the enemy army. Their deadly mission was to discover the enemy's plans and to destroy the missiles.

What can the special commando unit expect?

## Bionic Arm

It extends and contracts to give the player bionic power.

- This is a game in which members of a special commando unit armed with bionic arms and shotguns enter into the enemy's base in order to discover their plans.
- The bionic arm is a special weapon which gives you bionic power.
- You can use this bionic arm not only to move up and down but to grab things or scatter enemies.
- Whether the unit can accomplish the mission or not depends upon your technique.
- Save the world from an evil spirit!
